

## *Camping out in Style!*

Campers will find the Hanson Lake Road particularly appealing. Fine facilities are provided at government and private campgrounds along the route.

A number of excellent campgrounds are also located in the Candle Lake area.

Here the vacationer will find wilderness adventure along with the necessary conveniences including camp kitchens, fire places, water and picnic tables. Good beach facilities are also available at many lakes along the road.

Launching ramps, docks and fish filleting facilities round out the many conveniences.

Outdoor and wildlife photography enthusiasts will find the Hanson Lake Road the perfect spot for their hobby.

A complete variety vacation is yours along the Hanson Lake Road.

## *Within easy reach*

The Hanson Lake Road starts at Smeaton, Snowden or Choceland along No. 55 Highway, just 53 miles north - east of the City of Prince Albert. It then courses through some interesting country including the Wapawekka Hills and a glacially-formed esker.

The Hanson Lake Road is only 163 miles from Saskatoon and 225 miles from Regina.

From major Canadian and United States centres the road is 1070 miles from Minneapolis 813 miles from Fargo-Moorhead, 614 miles from Winnipeg and 500 miles from Edmonton.

## Bring the Whole Family

There's outdoor fun for the whole family in Saskatchewan's newest resort area — the Hanson Lake Road in the province's scenic and romantic north-east.

The Hanson Lake Road is approximately 225 miles in length and weaves through lush green parklands and the rocky pre-Cambrian shield.

The road provides a direct route from Prince Albert right through to Flin Flon on the Saskatchewan-Manitoba border.

This modern road takes vacationers through a big country of rocks, lakes and trees just opened up in the last few years. It overlooks lakes and other beautiful vistas that cause shutter bugs to fumble for their light meters at almost every bend.

But most of all, you'll enjoy the many activities available along the Hanson Lake Road. You can fish in sparkling lakes, where lunkers will fight to get at your lure; you can hunt big game and small game in an area that was made for the sportsman; you can swim and play on sandy beaches or you can simply sit back and relax and enjoy nature's wonderful outdoors.

Comfortable cabin and motel accommodation, good boat and motor service and gas stations are available along this new route. And there are also campsites for those who prefer to sleep under the sky.

### GRONLID

# *Fishing Thrills* along the Hanson Lake Road

Where the big Northerns bite

Literally dozens of lakes along the scenic Hanson Lake Road offer fishing that is "out of this world." Bring good strong line and plenty of tackle for the fish here are fierce, fast and ferocious.

Most lakes offer excellent northern pike and wall-eye (pickerel) fishing, while other bodies of water, such as Seeley Lake, Little Bear Lake and others, offer various species of trout. Piprell Lake, just a short drive from the Hanson Lake Road, is famous for its fighting

Rainbow Trout. Whitefish, Brook or speckled Trout and Perch are also found in some lakes.

You can expect the fishing trip of a lifetime in the lakes and streams along the Hanson Lake Road. For more adventurous anglers there are many lakes off the beaten path that have seldom felt the touch of an angler's lure. Still others can drive to Jan Lake and fly on north to further fishing adventures.

Charter aircraft facilities are available at Jan Lake for float-equipped aircraft only.

## *Big Game Paradise ...*

Moose is king of the Hanson Lake Road's big game family. This lordly monarch of the swamps and timber is found in plentiful numbers in the surrounding country and a high percentage of sportsmen each year are successful in getting their animal.

In recent years, two seasons have been held on moose in the Hanson Lake Road area—an early season during the last few weeks of September and the first week of October and the late or regular season during the month of November. During the early season, sportsmen can hunt by water and can "call" moose in for a closer shot. Guiding services are available at the various camps.

Upland game bird hunters can expect good hunting for spruce, ruffed and sharp-tailed grouse and Hungarian partridge. Both mule and white-tail deer inhabit this north-eastern area of Saskatchewan.

Other big game animals include bear, which is open on a year-round season.

TRULY A HUNTER'S PARADISE!

Moose is king of the big family
